CAREER OBJECTIVE

I'm a Software Engineering graduate and Full Stack Developer with hands-on experience in React.js, JavaScript, Node.js, Express.js, MongoDB, PHP, and Laravel. I enjoy building responsive web applications, solving technical problems, and turning ideas into practical solutions.

Alongside software development, I'm gaining practical experience in Software Engineering and Service Engineering within the pharmaceutical industry, developing my skills in coding, troubleshooting, technical support, and real-world problem-solving.

I'm looking to grow further in Software Development and Full Stack Development while bringing a practical mindset and strong problem-solving approach to my work. I believe in continuous learning, practical experience, and building solutions that create real value.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript, PHP, Python

Frameworks & Libraries: React.js, Node.js, Express.js, Laravel

Databases: MongoDB, MySQL

Tools: GitHub, VS Code, MS Office Canva, Adobe XD

SOFT SKILLS

- Thoughtful Decision
- Critical Thinking
- Time Management
- Clear Communication
- Quick Learner
- Attention to Detail

EDUCATION

Aptech Metro Star Gate — Karachi

August 2023 – August 2026

Advanced Diploma in Software Engineering (HDSE)

Technical Board

2025 – 2026

Intermediate in Computer Science (ICS)

AL Hamd English School

2021 - 2022

Matriculation — Biology Science

EXPERIENCE

01.) Admin & Inventory Coordinator J.(Junaid Jamsheed) Pvt.Ltd. | Textile

HIGHLIGHTS

- Managed inventory records and maintained accurate data for daily operations.
- Assisted in monitoring stock levels and ensuring proper inventory organization.
- Collaborated effectively with team members to achieve daily operational targets.
- Developed strong communication, teamwork, and problem-solving skills while working in a fast-paced environment.

02.) Software & Service Engineering 4D Technologies | August 2026 – Present Internship

HIGHLIGHTS

- Assist with installation, operation, troubleshooting, and service activities for pharmaceutical and laboratory equipment.
- Gain practical exposure to calibration activities for incubators and other laboratory instruments.
- Assist with Particle Counter and Air Sampling activities during pharmaceutical industry visits.
- Participate in IQ, OQ, and PQ activities as part of equipment qualification processes.
- Continuously improve programming and software development skills through self-learning and hands-on practice alongside professional responsibilities.
